

25000KG Tow Capacity Lead Acid Electric Baggage Tractor Large Heavy Duty Ground Support

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: GOODSENSE
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: Bare packaging
- Delivery Time: 30-40work days
- Payment Terms: T/T

Product Specification

- Name: Ground Support Equipment
- Feature: Heavy-Duty Ground Support
- Place Of Origin: China
- Brand Name: Goodsense
- Condition: New
- Energy Supply: Reference Introduction
- Advantage: Safe And Stable
- Highlight: **electric baggage tractor large, lead acid electric baggage tractor, 25000kg electric baggage tug**

Product Description

TOW TRACTORS

Heavy-Duty Ground Support
LARGE TOW TRACTOR
25000KG Tow Capacity
Tight Turning Radius
AC-Powered

Overview

GOODSENSE's heavy-duty Large Tow Tractor offers a maximum tugging capacity of 22KN. The AC drive system enables quicker acceleration, excellent gradeability, high top speeds, and expanding peak operator time. With a tight turning radius, the lead-acid electric baggage tractor is suitable for manoeuvring around planes, bag rooms, assembly line areas and ground-support equipment.

Electric Powered Pull

GOODSENSE lead-acid electric baggage tractor comes in an electric model that offers excellent travel speeds and towing power up to 22KN, making it a competitor with diesel-powered tractor while reducing emissions and environmental impact. And, with electric power, you can desert expensive fuel costs.

25 ton AC type electric tractor which has popular appearance and reliable performance is a new generation of environment friendly tractor designed by GOODSSENSE. It is a kind of important equipment in regional logistics field and it is mainly used in airport, railway, postal service, manufacturing industry, medicine, tobacco, logistics and other industry.

The four-wheel truck is powered by battery. The steering wheel is front wheel and the drive wheel is rear wheel. Imported controller with stepless speed regulation is assembled on the truck. The truck has high energy efficiency, low noise, easy operation and flexible steering.

FEATURES

GOODSENSE lead-acid electric baggage tractor with towing capacity 25t, is suitable for long travel. Many components are taken from forklift truck design, including the dynamic system and heavy-duty brakes – which are suitable for a baggage tractor.

HIGH PRODUCTIVITY

Advanced AC control system, with better climbing ability, high efficiency, high reliability, and low service cost. New AC power system, provides accurate adjustable performance, regenerative braking, long battery life. Maintenance free for AC motor, low running cost, high dependability, long life.

COMFORTABLE OPERATION

Low noise, environmental friendly, and low energy consumption.
Clear front view window, capacious operator space, and low step facilities for easy enter and exit.
Full hydraulic steering system, low steering weariness, small turning radius.
Ergonomic design of switch, operating pedals, adjustable steering wheel and suspension operator seat.
Spring damped suspension system equipped with front and rear axle, and with the tube hydraulic shock absorber, more driving comfort.
Rear view window design, easy to check the towing loads.

RELIABILITY

Electronic system with waterproof and flameproof design, the electronic control system with water cooling system.
Hydraulic Power Steering
80V AC Drive System
Tight Turning Radius
CAN-BUS
Inching switch
